

SERV-RITE®
**REDUCE
WASTE**
SAVE TIME

Cost effective and efficient

The one-at-a-time dispensing design ensures that customers use fewer napkins. Thanks to the transparent side panels, the consumption level can be monitored, and the dispenser can be refilled easily and quickly only when necessary.

Hygienic

Serv-Rite® dispensers provide hygiene benefits as the customer only touches the napkin taken. The small dispenser opening helps prevent further risk of cross-contamination.

Environmentally conscious

Serv-Rite® napkins eliminate over-serving, helping you to minimise waste and reduce consumption.
